

- *Snowmobile operators must have a valid state motor vehicle driver's license in possession.* Persons with a learner's permit may operate a snowmobile when supervised one-to-one with-in line of sight (but no more than 100 yds.) by a licensed person 21 years old or older.
- *Roads are open ONLY 7 AM to 9 PM.* Snowmobiles and snowcoaches are not allowed to operate in the park 9 PM-7 AM.
- *Maximum speed limit is 45 mph (72 kph) or less where posted or as conditions warrant; speed is checked by radar. Obey all speed limit and stop signs.*
- *35 mph (56 kph) speed limit* West Entrance to Madison, and Madison to Old Faithful.
- Use hand signals when turning or stopping.
- Allow enough distance between snowmobiles when traveling.
- Pass only when safe.
- If you turn around, do so within the road width.
- *Drive on the right side of the road even if the roads are rough.*
- *Drive in single file.*
- Do not idle your machine more than 10 minutes.
- When stopping, pull to the far right and park in single file.
- Stay on designated roads. *Sidehilling, berm-riding, or any off-road travel is prohibited* and carries a fine up to \$5,000.
- *Report accidents to a ranger.*
- *Operating a snowmobile while intoxicated is illegal.* Possession of open alcoholic beverage containers, including bota bags, is illegal.
- Snowmobile exhaust and muffler systems must be in good working order. The maximum noise allowed is 78 decibels when measured during

- full acceleration at a distance of 50 feet. Most stock exhaust systems meet this standard; after-market (piped) exhaust systems often do not. Snowmobiles exceeding the decibel standard are denied entry to the park.
- Hydrothermal basins, viewpoints, and walkways are snowpacked and icy during winter; fog reduces visibility. *Stay on boardwalks or maintained trails; walk carefully. Watch your children.* Your hand or voice may be too far away if your child leaves your side.
  - Approaching, chasing, molesting, or feeding animals is prohibited. Winter is a time of great stress for wildlife. When you force an animal to move, it uses energy vital to its survival.

WILD ANIMALS HAVE THE RIGHT OF WAY

- If bison or other wildlife are on the road, stop at least 25 yards away and/or pull your machine as far as possible to the opposite side of the road; give them a chance to move off the road.
- Do not make sudden or erratic movements; use groomed pullouts where possible.
- Do not chase animals or cause them to stampede.
- *If the animal appears agitated*, do not attempt to pass or you may cause the animal to charge.
- *If animals run toward you* and you can confidently turn around, do so, moving to a safe place to reassess the situation.
- *If they walk or run toward you* and you cannot turn around, get off your machine and stand to the side of it, keeping the machine between you and the animals.
- *If they are standing calmly*, inch toward them and assess their behavior. If they remain calm, pass on the opposite side of the road at a moderate speed.
